EDUCATION

2021 - 2023

Computer Science

Passerelles Numériques
Cambodia

2016 - 2021

High School

Chba Ampov High School

MY SKILLS & EXPERTISE

PHP & Laravel

HTML & CSS & JS

Database

Vue Js & Node JS

AWS & Git Action

Algorithm & Python

CICD & Docker

PROFILE INFO

Name : Roeun Vireak

Gender : Male

Age : 23 years old

Origin: Cambodia

Nationality : Khmer

Matrital status : Married

WORK EXPERIENCE

Senior DevOps Officer at The Institute of Banking and Finance

08/2025 – Present

- Lead backend development using Laravel to design and maintain RESTful APIs for core modules.
- Integrate frontend (Vue / Quasar) with backend services to ensure seamless system functionality.
- Design and manage database architecture, ensuring data integrity, performance, and reliable backups.
- Integrate and manage AWS services for deployment, hosting, monitoring, and security.
- Optimize API security and system performance through authentication, authorization, and clean coding practices.
- Troubleshoot and resolve production issues to maintain system stability.
- Maintain API documentation and develop internal tools for data validation and reporting.
- Apply best practices in clean code, version control, and conduct code reviews to support team quality.
- Collaborate with the Digital Manager and cross-functional teams to deliver features on schedule.

Technologies: Laravel, RESTful APIs, AWS, MySQL, Vue.js, Quasar, HTML, CSS, JavaScript, Python, Docker, CI/CD, Git, GitHub Actions, DBeaver

Soft Skills: Leadership, Team Collaboration, Problem-Solving, Communication, Mentoring, Time Management

Web Developer & Teacher at ANT Training Center

03/2024 – 08/2025

- Develop and maintain full-stack web applications using Laravel (10–12), Vue.js, and Nuxt.js.
- Build internal systems including CMS, task management, farm management, and social media platforms with API integration and role-based access control.
- Design backend logic and RESTful APIs, and implement responsive frontend interfaces using Vue.js and Bootstrap 5.
- Teach short courses in PHP, MySQL, Laravel, and OOP (sponsored by the Ministry of Post and Telecommunications).

LANGUAGE

- Khmer
- English

- Mentor junior developers through code reviews, debugging support, and real-world project guidance.

- Manage VPS deployments (aaPanel) on Ubuntu servers.

Soft Skills: Communication, Mentoring, Public Speaking, Leadership, Time & Task Management, Team Collaboration

Laravel Developer at Vichea IT Solutions (Full-time)

12/2023 – 02/2024

- Developed and maintained backend features for the Coffee Shop Management System, working closely with the project manager to deliver assigned tasks.
- Used Laravel, MySQL, and RESTful APIs to manage customer data, orders, and reports.
- Worked collaboratively with the frontend team to ensure smooth integration and feature delivery.
- Participated in internal code reviews and resolved bugs across various modules.
- Soft Skills: Problem-Solving, Communication, Time & Task Management, Teamwork

Personal Software Projects (Independent & Team-Based)

04/2023 – Present

- Developed multiple projects using Laravel, TypeScript, JavaScript, and MySQL.
- Built an OOP application with TypeScript, UML diagrams, and GitHub for version control.
- Created Drone APIs with Laravel and MySQL for backend data handling.
- Collaborated in a team on Chill Realm, a YouTube-style platform, managing both backend and frontend tasks.
- Gained valuable experience in project planning, communication, and teamwork.
- Completed numerous freelance graphic design projects, creating posters using Photoshop and Adobe Illustrator (AI).
